OFFICE OF THE MINISTER FOR EDUCATION
Date. 20-2-48
No. CNR 125

In June 1947, Government sanctioned the continuance of 19 fuel sales depots in Bangalore City along with their establishment, costing a total sum of Rs.3,715/- p.m. till the end of December, 1947. Subsequently, the contract with the Bangalore Fuel Supply and Transport Company for supply of fuel to Bangalore City, the C & M. Station and the Army, was renewed for a period of one year from 1st July, 1947, under certain modified conditions, the purchase rates being increased by Re.1/- per ton for all classes of firewood.

2. The Director of Food Supplies has now reported that the fuel supply position in Bangalore City has not yet improved and that scarcity continues. As the contract with the Fuel Supply Company has already been renewed and as it is not desirable to leave the fuel distribution work at this stage entirely to private agency until adequate and continuous supplies can be assured, he solicits sanction for the continuance of the existing fuel sales depots in Bangalore City along with their establishment till the end of June, 1948.

3. In the circumstances, it is proposed to accept the above recommendation of the Director of Food Supplies. In view of urgency, G.O. No. CD.6577-7D/A.117-47-2, dated 17th January, 1948, sanctioning the continuance of the Fuel Depot staff till the end of June 1948, has been issued with the approval of the Dewan. While conveying sanction, the Director has also been asked to carefully examine the fuel supply position in Bangalore City, with a view to eventual

I am in favour of decontrol as early as possible. My experience is whichever commodities are decontrolled those Commodities have gone down in price. For example, Jaggery has become cheap. Recently sugar & jola have been decontrolled. The market-report is that sufficient quantities are coming into the market. The rates also are not high.
